85	B	perrinii	species Brazil, Bolivia, Paraguay
86	B	retusa	species Peru, Venezuela
87	B	subulifolia	species Jamaica
88	B	tuberculata	species Brazil

This list of plants for sale contains 79 Brassavola nodosa hybrids and 9 Brassavola species that I have available. Two or three of the crosses may be in short supply, but most are available. I can only carry about 20 of them with me when I come to do a program, but will fill preorders for anyone who has a specific interest. Most plants are 4 or 4½ inch pots, blooming size or near blooming size, with prices averaging \$12, a few under and a few over. The ones above \$12 are typically rare and hard to find. If anyone is interested, please have them communicate via email (vern@cfllr.com). Those who make preorders will not be required to buy the plants unseen. When they see plants, if they don't like the plant or the price, there will be no obligation to buy. I have pictures of most of the plants.
